Basic standards and regulations bind the Festival together and are set to keep the organization strong and viable. Students are expected to dress neatly, assume individual responsibility for maintaining their rooms and caring for their instruments, and behave in an acceptable manner on and off campus. All New York Summer Music Festival participants are required to comply with Festival and college policies. NYSMF reserves the right to send a student home for any infraction, without refund, including, but not limited to violation of any federal, state or local law, or infractions of rules set forth in the student code of conduct. Any student found using or possessing illegal drugs or alcoholic beverages, engaging in physical violence of any kind, making life-threatening statements, or found in an opposite sex dorm or in a dorm that houses members of any other program on the SUNY Oneonta campus will be dismissed from the Festival immediately without refund. Students are not permitted to smoke during the Festival. All students must show all faculty, staff and other students respect at all times.

Please ensure your email address is complete, correct, and legible. All NYSMF correspondence is done via email.

The following information is to notify you about meningococcal disease, a potentially fatal bacterial infection commonly referred to as meningitis, and a new law in New York State. On July 22, 2003, the New York State Public Health Law (NYS PHL) was amended to include §2167 requiring overnight children's camps to distribute information about meningococcal disease and vaccination to the parents or guardians of all campers who attend camp for 7 or more nights. This law became effective on August 15, 2003.

The New York Summer Music Festival is required to maintain a record of the following for each student:

- A response to receipt of meningococcal meningitis disease and vaccine information signed by the student's parent or guardian; AND
- Information on the availability and cost of meningococcal meningitis vaccine — AND EITHER —
- A record of meningococcal meningitis immunization with immunization within the past 10 years; OR
- An acknowledgement of meningococcal meningitis disease risks and refusal of meningococcal meningitis immunization signed by the camper's parent or guardian.

Meningitis is rare. However, when it strikes, its flu-like symptoms make diagnosis difficult. If not treated early, meningitis can lead to swelling of the fluid surrounding the brain and spinal column as well as severe and permanent disabilities, such as hearing loss, brain damage, seizures, limb amputation and even death.

Cases of meningitis among teens and young adults 15 to 24 years of age have more than doubled since 1991. The disease strikes about 3,000 Americans each year and claims about 300 lives.

A vaccine is available that protects against four types of the bacteria that cause meningitis in the United States –types A, C, Y and W – 135. These types account for nearly two thirds of meningitis cases among teens and young adults.

Information about the availability and cost of the vaccine can be obtained from your health care provider and by visiting the manufacturer's website at [www.meningitisvaccine.com](http://www.meningitisvaccine.com). The meningococcal vaccine is not available for your son/daughter at the Festival.

I encourage you to carefully review the enclosed materials. **Please complete the Meningococcal Vaccination Response Form on the back of this letter and return it to the New York Summer Music Festival, PO Box 947, Oneonta, NY 13820 at least 2 weeks prior to the student's arrival at the Festival.**

To learn more about meningitis and the vaccine, please consult your child's physician. You can also find information about the disease at the New York State Department of Health website: [www.Health.State.NY.US](http://www.Health.State.NY.US), and [www.CDC.GOV/NCIDOD/DBMD/DISEASINFO](http://www.CDC.GOV/NCIDOD/DBMD/DISEASINFO).
